<h3>Conclusion</h3>
<div class="ending">
    <p>Sri Lankan cuisine is a unique blend of herbs, spices, vegetables, fish, and

    The country has a history of trade with foreign traders who introduced new food
items and cultural influences. The cuisine varies by region, with seafood being prominent in
coastal areas, Tamil cuisine sharing similarities with South Indian cuisine, and Kandyan
Sinhalese cooking utilizing hill vegetables and fruits.
    Sri Lankan food offers a range of flavour combinations and is inclusive of non-
native ingredients. However, trans-generational knowledge dissemination related to
traditional and indigenous foods is now limited due to changing lifestyles, dwindling
knowledge holders, and shrinking resources.
    Overall, Sri Lankan cuisine is a reflection of the country's diverse cultural
influences, unique geography, and rich history.</p></div>

String Hoppers

Also known as "idiyappam", this dish is made with steamed rice flour noodles, often served with a spicy coconut-based gravy or a sweet jaggery sauce. Idiyappam is a culinary speciality throughout the Indian states of Tamil Nadu, Kerala, Karnataka and in Sri Lanka. The dish is also, frequently, called noolappam or noolputtu, originating from the Tamil and Malayalam word nool, meaning string or thread. In Mangalore and Udupi it is eaten with Tuluva chicken or fish curry, and a coconut milk dish called rasayana. It is also a common breakfast item in Malaysia & Singapore, where it is called Puttu Mayam, typically served with brown sugar and grated coconut.
